

VINITRELL

AGRI & FOOD

Food hoses/Foodstuff transfer

Applications

Specially designed for wine transfers in wine processing industries.
Suction and discharge of any foodstuff except fatty/oily liquids.

Advantages

- The utmost user friendly rubber hose: outstanding flexibility and easy handling thanks to slicking cover. Weak tractive effort.
- Smooth, seamless, white tube that does not propagate bacterial growth and complies with the most stringent French, European, and American requirements for foodstuff handling.
- Unaffected by changes in temperature, the advantage of rubber over PVC.
- Resistant to cleaning with detergents or steam at temperatures up to 110 °C (during 10 minutes max.).
- Non-marking cover.
- Contains no phtalate.

Technical description

Inner tube: food grade quality NR, white, smooth.
Reinforcement: synthetic textile with embedded steel helix.
Cover: special, polymer-based, red.
Temperature range: - 30 °C to + 80 °C.
Standard/Approval:
CEE GUIDE for food contact.
FDA directives.
Food grade approval from the French Institute of Poitiers (IANESCO) for the tube.

Couplings/Fittings

Specially designed fittings are available, please contact us for further information in order to get optimum connections.
